

ST JAMES' CHURCH IS CLOSING FOR 3 WEEKS

Our lighting upgrade project is moving to the installation phase and we are taking the opportunity to install our new lights in July, during a short lull in the wedding season.

Full scaffolding will be erected in the chancel and aisles to reach the lights. Since all this work is at a high level we have decided to close the church during the working week and only open the church on Sundays for services. This ensures that all health and safety regulations are adhered to.

The church will be closed from
Monday 11th July to Friday 29th July.

We look forward to welcoming all visitors when we reopen
